

DEE HOPKINS

Visual Artist

PROFILE

Dee is a visual artist known for contemporary abstract, impressionism and mixed media work.

Her artwork draws inspiration from her extensive leadership background in national health education and advocacy for vulnerable communities. Consequently, Dee often incorporates storytelling into her pieces, exploring themes such as ageing, feminism, and social injustice.

Dee's art presents unconventional interpretations of both the natural world and daily life, using colour and form in creative ways to discover meaning in the ordinary.

She enjoys exploring new mediums and techniques as her work continues to evolve.

Dee works from her studio and little gallery in Jerrabomberra, NSW. Open by appointment.
